## ECO-CLEAN BATTERY SERVICES

## IMPROVE YOUR BATTERY PERFORMANCE SAVING MONEY AND IMPROVING PRODUCTIVITY

- + Our self contained wash and service truck allows washing and battery maintenance to take place outside of your facility by certified technicians.
- + Clean and serviced batteries save you time, money, and improve equipment productivity
- + Extend battery life and reduce your new battery purchases
- + Reduce corrosive material contact with lift trucks and operators
- + Our end to end eco-clean battery wash process is environmentally safe and self contained resulting in the complete reuse of all water.

## WERRES iPOWER SOLUTIONS

## BATTERY MAINTENANCE SERVICE TRUCK (SELF CONTAINED WASH UNIT)

	BATTERY RATE	DAILY RATE				
Battery Service Inspection to Include	\$85.00	\$750.00	BATTERY WASHING IN OUR SELF-CONTAINED TRUCK			
Individual battery cell voltage readings (High and Low)	Included		∞ Includes individual cell voltage readings			
Individual battery cell gravity readings (High and Low)	Included		∞ Includes individual cell hydrometer readings			
Battery to tray voltage reading (If applicable)	Included		∞ Includes volt to frame readings			
Battery watering system inspection (If applicable)	Included		∞ Includes cell cap / watering system inspection			
Battery vent caps inspection and replacement (Caps Quoted)	Included		∞ Includes connector inspection / replacement			
Battery inner cell connector inspection	Included		$\infty$ Includes topping off of cells			
Battery shroud replacement as needed (Shrouds quoted)	Included					
Battery connector inspection	Included		CHARGER INSPECTIONS			
Battery connector contacts inspected for pitting, crimped connection and wear	Included		∞ Charger Connector Replacement			
Battery cable inspection for breaks, cracks, & wear	Included		∞ Charger Cable Repair / Replacement			
Battery tray inspection (Includes lifting eyes)	Included		∞ Charger Connection Torquing			
Battery water levels to be checked (Depending on state of battery charge water will be added accordingly)	Included		∞ Charger Output Analysis			
			∞ Cleaning Inside	e Charger		
A complete battery inspection report will be generated for review	Included					
HARGER INSPECTIONS AND SERVICE	\$50.00					
Charger cables inspected for breaks, cracks, & wear	Included	Cable install		INSTALLED PRICE	PARTS DESCRIPTION	
Charger contacts inspected for pitting, crimped connection and wear	Included					
Blow out chargers on a by-yearly bases as needed (Application Driven)	Included			\$100.00	1/0	Cable
Check charger stability to stand (Application Driven)	Included	1		\$105.00	2/0	Cable
Check charger DC output per charger to battery specifications (Discharged battery needed)	Included	┨		\$110.00	3/0	Cable
Check AC and DC charger fuses for continuity	Included			\$115.00	4/0	Cable
Inspect charger AMP hour to battery (Are they within specifications)	Included	Connector insta	all	\$37.00	Specify color and size (Quoted SB350)	
		Connector Con	tact install	\$95.00		
HECK BATTERY ROOM SPECIFICATIONS BY OSHA STANDARDS (1910. 178 & 1926.441)		Single Point watering kits (Labor and Kit installed)		\$264.00	24-Volt	
Eye wash system (Within twenty five feet)				\$396.00	36-Volt	
Inspect battery spill kit to match the number of battery being charged		↓ ├────		\$528.00	48-Volt	
If customer has wall mounted eye wash (Last date inspection on bottles)				\$95.00 - \$135.00 Depending on the brand of watering system user		
PPE Equipment		Watering guns		(BWT, Flow Rite etc)		
Check charger stands and battery rollers beds for wear and roller replacement		Cleaning battery room floor area		Quoted by the job or space (Generally \$500-Plus		
Provide quote as needed		Neutrizing pads		Quoted by the roll.
