

Modula Automotive Think Vertical, Think Modula

If you own, or are thinking about a static storage solution...stop!!

Increased PRODUCTIVITY

The smart automotive parts storage solution

1. SPACE SAVINGS

Dramatically reduce the size of your parts area

2. SECURITY

High value parts stored in a secure environment

3. PRODUCTIVITY

Get needed parts to your techs faster

4. ACCURACY

Fulfill parts orders efficiently

5. ERGONOMICS

No climbing, bending or reaching for parts

6. EFFICIENCY

Improve overall inventory management

HIGHER OPERATING STANDARDS

Get parts to your customers & technicians faster

With Modula units parts are stored in centralized, secure units and are easy to find, no more walking while searching for parts.

Parts areas, servicing both sales and service are able to benefit from the added flexibility, improved efficiency and increased throughput provided by implementing Modula units.

SPACE SAVINGS

Reduce the size of your parts area

Depending on your ceiling height, a Modula vertical storage unit is able to store the same amount of parts inventory that is stored in 55-80 bays of shelving, typically equating to a 90% floor space savings for parts storage areas, recovering approx. 1,200+ square feet of floor space.

Space saved allows dealers to carry a larger parts inventory, add services such as a customer lounge or increase revenues with additional service bays.

EFFICIENCY, ERGONOMICS & USER SAFETY

Get needed parts faster, with no climbing, bending or reaching

Modula VLM's maximize storage utilization & productivity by bringing parts to the user. Bending, reaching, lifting heavy parts and having to walk up & down mezzanine steps or shelving aisles are all eliminated.

It is possible to store common groups of parts used for service jobs on the same tray, further saving time getting needed parts to complete repairs faster.

Units are equipped with user safety features to ensure a 100% safe working environment for users, guaranteed by the TÜV certification obtained for the entire product line.

DEALER MANAGEMENT SYSTEM (DMS) INTEGRATION

IMPROVED ACCURACY

Potential of 99%+ picking accuracy & with DMS integration

Modula units have the potential to interface to any Dealer Management Systems (DMS) system, allowing orders to be sent directly from the DMS system to VLM units automatically.

Proudly a

Approved Interface

DMS INTEGRATION BENEFITS

- Approved DMS interfaces providing seamless order processing in real-time capabilities.
- No code is modified or installed on your DMS, avoiding potential reliability, security, and data integrity problems.
- DMS integration saves you time & increases accuracy when using Modula WMS software.
- Modula receives advance notification of changes to the DMS, supporting uninterrupted performance and less chance of disruption to your business.

MODULA WMS SOFTWARE

Modula WMS is a fully featured management software available to manage the space and utilization of Modula units. It can easily be interfaced with many DMS systems and nearly any ERP system.

Displays part number & description

Item location clearly displayed to operators

Easy picking confirmation

Displays sales order number

Displays quantity to pick or put

Order Information:

- Resulting Quantity
- Order Description
- Notes
- Remaining Lines

COPILOT OPERATOR CONSOLE

The COPILOT console is a rugged operator interface, that features include a 10.5" color touch screen display and an extremely intuitive and easy to use environment.

Graphical views of tray layouts clearly show the user precisely where and what to pick, displaying all required information such as item number, quantity, order information, item notes, etc.

PICKING BAY TYPES AVAILABLE

Internal or External Bay, Single or Dual Delivery

SINGLE INTERNAL DELIVERY

SINGLE EXTERNAL DELIVERY

DUAL INTERNAL DELIVERY

DUAL EXTERNAL DELIVERY

AVAILABLE UNIT OPTIONS

That increase productivity & accuracy
