

# AXLE PULLER

## SIMPLIFYING TIRE REMOVAL

Need a tool to help simplify removing forklift tires? The Axle Puller from Raymond is the answer!

The Axle Puller eases steer and tire changes for the EASiPacer™, 4100, 4150, 4200 and 4250 lift trucks. Using a slide hammer, the axle puller can quickly remove a tire's axle. Threads on the inside of the puller allow the unit to be attached to the axle.

The Axle Puller from Raymond is easy to use and a simple solution for tire removal.
