

Hydraulic Fluid & Oil:

maintain equipment properly

Hydraulic fluids and oils from Raymond are approved to lubricate where good anti-wear and anti-oxidation properties are required.

The fluids are for use in high-pressure hydraulic systems, machine tools, presses, compressors, pumps, gear sets and centralized bearing lubrication systems.

Part Number	Description	Temperature Range
 990-616/01	Standard Hydraulic Fluid, lubricates where good anti-wear and anti-oxidation properties are required, 1 gal, must buy in quantities of 4	For trucks at ambient temperature 50°F to 120°F 10°C to 49°C
 990-616/03	Standard Hydraulic Fluid, lubricates where good anti-wear and anti-oxidation properties are required, 5 gal	For trucks at ambient temperature 50°F to 120°F 10°C to 49°C
 1017238/02	All Weather Synthetic Hydraulic Oil, door damping fluid, 1 gal, must buy in quantities of 4	For cold storage trucks moving in and out of freezer 0°F to 50°F -18°C to 10°C
 1017238	All Weather Synthetic Hydraulic Oil, door damping fluid, 5 gal	For cold storage trucks moving in and out of freezer 0°F to 50°F -18°C to 10°C
 990-618/01	Cold Storage Hydraulic Oil, maximizes anti-wear protection for high pressure van and piston pumps, 1 gal, must buy in quantities of 4	For cold storage trucks confined to freezer -20°F to 0°F -29°C to -18°C
 990-618/03	Cold Storage Hydraulic Oil, maximizes anti-wear protection for high pressure van and piston pumps, 5 gal	For cold storage trucks confined to freezer -20°F to 0°F -29°C to -18°C
