

iPARTS™

ONLINE PARTS ACCESS ANYTIME

Exclusively Available through Raymond, the *iParts* system is a web based interactive system that provides real-time truck information. The search abilities in *iParts* allow you to find information about your trucks by model name or serial number to ensure you can find the proper parts for your trucks.

A truck specific bill of materials enables a full listing of parts to be shown for your trucks. Service bulletins are also available on *iParts* to show all information pertaining to the components of your forklifts.

***iParts* Provides One Stop Shopping** for both *Raymond Parts*™ and *DuraSource*® for every make and model and any other material handling item - we can get anything you request. Access to parts information and ordering is available **24/7**. Our centralized ordering system makes it easy to order the parts you need and be sure that all of your locations are receiving consistent information. All of this plus the ability to view shopping cart order histories is available.

Whether you need parts for an electric truck or an I/C truck, tools for your service technicians or cleaning products to make sure your facility remains spotless, *iParts* has all the information about your material handling products to meet all of your business needs. **Exceeding customer expectations isn't just our mission, it's our goal.**
