

LED LIGHTS

== BRIGHTER WORK LIGHTS WITH LONGER LIFE ==

With energy expenses on the rise why not switch to a simple, more efficient solution?

LED lights from Raymond optimize energy savings and increase light output. LED lights use significantly less wattage than incandescent. The low energy consumption bulb increases truck battery shift life, resulting in increased productivity. Plus, LED work lights have as many as 30,000 hours of operating life, versus 200 hours from an incandescent light.

In addition, LED lights also provide a brighter light than standard lights to reduce operator eyestrain. LED work lights are 10x brighter than standard incandescent lighting.

Additionally, LED work lights from Raymond are UL recognized and can perform in rough dock applications of 4100, 4200 and Eas[™] Pacer trucks.

Replace bulbs less often and have a brighter operating light with LED lights from Raymond.

RAYMOND

LED WORK LIGHTS SPECIFICATIONS

LED work lights are UL recognized and meet SAE J575 for sealed shock and vibration. Input voltage for the LED lights is 12-480 V DC.

Part Number	Description
1079619/UPD	LED with on/off switch with vertical mount
1079619/K01	LED without on/off switch with vertical mount *
1079619/25	LED with vertical mount, 25% brightness output sensor
1079619/003H	LED with horizontal mount, on/off switch, and 25% output sensor
1087997/101	New Installation Kit for 4200 Mast, 2 Lights
1087997/102	New Installation Kit for 4100/4200 Rear, 1 Light
1087997/104	New Installation Kit for 4100 Mast, 2 Lights
1136920	12-48 VDC LED for <i>Reach-Fork</i> [®]
1079619/LEAD	Deutsch Connector and 12" wire
* Includes twelve inches of wire and a connector, used to replace an existing standard incandescent light.	

Part Number	Description
1101305	LED Light and Fan for 9600/9700
1101305/KIT	LED Light and Fan for SA/SB

Part Number	Description
1136923/001	LED Auxillary Light Assembly with RAM mount and rocker switch, for Orderpickers and Reach
1136923/002	LED Auxillary Light Assembly with RAM mount, for Orderpickers and Reach
1039652/004	RAM mount for Reach
1136920	LED Auxillary Light Assembly with connectors and leads for <i>EASi Pacer</i> [™] , Models 4100, 4150, 4200 and 4250
1104081	LED work light, 12-48 VDC round, six year warranty

Part Number	Description
1101837/001	LED Light Assembly for 5400, 5500, 5600, <i>EASi</i> Orderpicker
1101837/002	LED Light Assembly for 5200
