

RAYMOND SMOOTHY[®] WHEELS AND TIRES

EXCLUSIVELY FROM RAYMOND

RAYMOND

SMOOTHY® WHEELS AND TIRES FOR RAYMOND LIFT TRUCKS

Exclusively available through Raymond, Smoothy® drive tires, steer tires and load wheels offer premium performance for Raymond lift trucks.

Smoothy wheels and tires minimize vibration while providing a comfortable ride. With a 12x better run-out than OEM requirements, the Smoothy is your sure choice for a wheel or tire that lasts.

The Smoothy's longer tire life helps extend the life of a forklift truck's battery and motor. A faster travel time with minimal shaking increases operator comfort while decreasing fatigue. Reach wobble and sway is reduced as well as the potential for damage of transported goods with the Smoothy.

Offering drive tires, steer tires, load wheels and caster wheels, the Smoothy is the right fit for Raymond lift trucks that demand premium performance.

Raymond Smoothy Features

- » Premium line of Raymond wheels and tires
 - » 85 durometer tires
 - » 95 durometer wheels
 - » Zero Total Indicated Runout (0 TIR)
-

Raymond Smoothy Benefits

- » Fewer wheel and tire changes
 - » Smoother ride for operator comfort
 - » Decrease in motion vibration for increased comfortability and load stability
 - » Increase in lift truck performance uptime
-
