

VANTAGE POINT™

COLOR IMAGING SYSTEM

Exclusively available through Raymond, the Vantage Point™ System provides high level color imaging for Raymond Reach-Fork® and Deep-Reach® trucks.

The *Vantage Point* provides additional visual assistance to operators at great lift heights. With a 52° x 52° view, the monitoring system provides an easy way to identify and read pallet tags.

The *Vantage Point* operates between -30°C to 60°C temperature range.

Find out how *Vantage Point* system from Raymond can improve operating performance.

RAYMOND
